### **TMD receives another large overseas TWT order for search and rescue radar**

TMD Technologies Limited (TMD), world class, West London based manufacturer of professional microwave and RF products, has received a £2M overseas order for travelling wave tubes (TWTs) for an airborne search and rescue radar application.

Based on TMD's innovative, proven ring loop development, this top performance, high power TWT operates in X-band with exceptional reliability, featuring an advanced electron gun with long life dispenser cathode and sophisticated grid design.

“This particular TWT has been supplied by us since the 1990s and is still in demand”, said Nigel Hann, TMD’s Head of Sales, “and this latest order is testament to the product quality as well as the strong business relationship TMD has fostered and maintained with the radar system’s prime contractor”.

Commented Jane McAlister, TMD’s Sales and Business Development Director: “We are pleased and proud that our high-performance specialist microwave products are still helping to save lives. Our new, cutting edge product portfolio - based on decades of design and manufacturing expertise - is engineered to meet the exacting demands of new airborne radar platforms well into the future”.

### **TMD Technologies Limited – more than 20 years at the top of scientific and technical microwave and RF innovation**

With a heritage dating back to the 1940s, TMD Technologies Limited (TMD) is a world class designer and manufacturer of professional microwave and RF products. At the company headquarters in Hayes, West London it produces specialised transmitters, amplifiers, microwave power modules (MPMs), high voltage power supplies, microwave tubes and transponders for radar, EW and communications applications. A previous twice Queen’s Award winner, it also produces a range of advanced instrumentation microwave amplifiers for EMC testing, scientific and medical applications.

## **TMD Technologies, LLC, USA**

TMD Technologies, LLC is the US subsidiary of TMD Technologies Limited. Based in Baltimore, Maryland, it provides complete technical and commercial support to TMD's customers in the USA, including a comprehensive product repair centre.

The Sales and Business Development Department is engaged in the sales of the whole range of TMD's products, as well as new business development in the United States.
